MARCH 2010 | VOL. 10, NO.3

[BE CAREFUL! ALARM SYSTEMS AND INTERAC® MACHINES THAT USE INTERNET.]

In the past few months, we noticed that these new alarm systems and Interac® machines that are being installed communicate using the Internet. Because these systems need to use the Internet, they need to have a unique IP Address assigned to them.

Therefore, it is very important, when the technician comes to the clinic to install the system, that he be informed of the IP Address that he can give it. We strongly suggest that, beforehand, you contact your network technician or OSI so that we can give you the necessary information.

OSI's Technical Services: 514-762-1954 or 1-866-660-6797

[OUR OPTOSYS®2.COM SITE HAS A FRESH IMAGE]
