# [MULTIPURPOSE PROFIT REPORT.]

Don't be fooled by its name, this report can provide you with more information than you might think. Even though you may not manage all of your products in Inventory and you may not have created details for some of them, this report will provide you with the quantities sold by product name. For example, you would like to know how many contact lenses (Frequency 6 months) you've sold since the beginning of the year.

From the « Printing » menu, select « Invoicing » and then « Profit Report... »

In the Profit Report window, select the date interval, the type of item and any other filters that you would like to use. Click on OK.

Here is an example of the report.
