You can easily access them by following these next few steps.

Access our **Optosys2.com** site at www.optosys2.com

- Click on the language of your choice
- Click on Services
- In the Optosys®Info section, click on « Click Here! »

We would like to get your comments and / or suggestions. You can email us your thoughts by clicking on the "Contact Us" link at the bottom of the web page.

[TIPS & TRICKS]

How to initialize a search product default field

Did you know that it is possible to initialize a default field for your product search?

Follow the steps on the next page

[BUY ONLINE]

MONTHLY SPECIAL

www.opto.com/b2b

Microsoft LifeCam VX-5500*

Share your world with friends and family anywhere, anytime.

Send a video message to your contacts even if they are not online. The webcam fits on all monitors, including flat screens and notebooks, or sits directly on your desk. This webcam works with instant messaging programs such as Skype, Yahoo! Messenger and AOL Instant Messenger™ and with the help of the noise cancelling microphone, your messages will be crystal-clear and echo free. The extra faceplates let you customize the camera with your favorite color.

\$39.99**

HOW TO INITIALIZE A SEARCH PRODUCT DEFAULT FIELD.

You can initialize the positioning of the cursor in the field “**Product Number**” when searching for a product. Ex : Frame search.

In the “**Admin**” menu, select “**Application**” and then “**Default Values**”.

In the “**General**” tab, you can choose a default “**Product type**” that will be selected automatically when you do a “**Product Search**”. In this example, we’ve chosen “**Frames**” and we’ve selected “**Product Number**” as a search mode for a frame product. Note that it is also possible to initialize a search mode for each different product type.

Once everything has been saved, the next time you do a “**Product Search**”, the default “**Product type**” will be “**Frames**” and the cursor will be placed in the field “**Product Number**”.
