

# TIPS & TRICKS

How to identify a Lab Order that has been redone.

1. You must first initialize the “Use” in the Admin – Patient – Rx Spectacles menu.

2. In the patient’s spectacle prescription, in the Ophthalmic Lens section, select “Redo” from the “Use” drop down list.

3. In the Patient’s Rx tab, the “Use” field shows in the Prescription grid.

4. A selection based on this field can be created. If you need help, please contact us at 514-762-1954 or 1-866-660-6797.
